

Mr. Chairman -

I wish to voice my opposition to the proposed changes in FCC rules and deregulation that would relax ownership restrictions for media companies in the US. As a media consumer I value the variety and diversity of popular media and oppose any changes that could jeopardize my access to a breadth of media options. Regardless of the exact statistics on media ownership, I believe that allowing media companies to own more stations across more of the country will not provide me with better service.

I encourage you to NOT relax ownership regulations--heed the will of the US consumers.

Thank you,
Nicholas Burger
Santa Barbara, CA
